

VOYAGE **590**

VOYAGE YACHTS

DESIGNED FOR ADVENTURE. BUILT TO ENDURE.

VOYAGE YACHTS has been the popular choice for both the cruising and charter market, since its formation in 1994. Our much-deserved reputation for quality, strength and durability has been recognised by numerous prestigious awards won over the years.

The VOYAGE 590 was conceived and designed to represent the ideal configuration for a large charter sailing vessel. Designed to deliver an equal cabin experience for all guests, it offers spacious interiors, refined finishes, and exceptional stability and performance at sea. The naval architecture and rigging with its overlapping sail plan has been specifically configured to enhance extended blue water sailing. With the latest reputable navigation and smart on-board systems, the VOYAGE 590 ensures effortless handling and ultimate comfort underway, making every journey as enjoyable as the destination.

For the Charter Layout, we have provided 6 equally configured ensuite cabins, luxuriously accommodating up to 12 guests. With an abundance of outdoor space provided by the flybridge, foredeck and cockpit, friends and family can spend time together in complete comfort.

Our Owner's Layout option has been configured to comfortably accommodate all essential cruising/live aboard amenities below deck within the generous hull space. The mid to forward section of the starboard hull is dedicated to the main ensuite cabin, featuring a private saloon, vanity and desk, with a double ensuite cabin accommodated in the aft section. On port, the forward hull is configured as a pantry, laundry and workshop, with two double ensuite cabins centre and aft.

The VOYAGE 590 Charter Layout represents the culmination of more than 30 years of experience in design and manufacture for the charter market, epitomising the ultimate configuration in 12 pack crewed charter accommodation. International recognition was again achieved by VOYAGE YACHTS in 2022 when the VOYAGE 590 won the prestigious 'Boat of the Year Award' presented by Cruising World for 'Best Charter Boat of the Year'.
